

March 23, 2009

Brothers and Sisters,

I was just informed that there appears to be a problem with employee's receiving their last paycheck that were laid off on 3/13/09. After a quick investigation I have learned that all employee's that were laid off on 3/13/09 employee #'s were deleted from the payroll system prior to their last check being printed which resulted in their checks having to be mailed from Portland, Oregon instead of ADP in Charlotte which accounts for the delay in receiving their paychecks or stubs if they have direct deposit. Anyone that requested to be paid out BOTH their sick time and vacation will receive it in the form as they did their weekly paychecks. In short, if they have direct deposit it will be deposited directly in their accounts and if they receive a hard copy check they should receive it in the mail or direct deposit by 3/25/09. This has not effected any employee who deferred their sick or vacation time. If you deferred one and not the other you should have received that payment by 3/24/09.

Fraternally yours,

Steve Barber
