

Notice to all LAID OFF MEMBERS

If you were laid off in March of 2009, it has been six months. At the end of September, in the last ten days, if you wish to keep your membership active you must send an e-mail, come by the local in person, or send a letter to keep your membership active. This must happen between September 21 and September 30. We cannot, per the constitution allow anyone to keep their membership if we have not received something by the 30th of September. Anyone not contacting us your membership will end and you will not be able to rejoin until you are called back to work.

For the workers laid off in May you will have to do the same thing beginning the last ten days of November.

Please be advised that you must do this every month during the last ten days of the month to keep your membership active.
